### Using iPOLL—

- **Investigate the year you were born.** What were the key issues of the day? Who was president? How well-liked were they? How was the US economy doing? What kinds of international activities were in play? Which teams were in the World Series?

Hints: Limit the dates of the searches and conduct different searches for each area you would like to cover.

- **Describe what was on the collective minds of the public during the period 1963-1970.** Be sure to consider both domestic and international matters in the US. How would you contrast those views to today?

Hints: Consider the events of the period. If you are uncertain, try searching for the words (most important) and (problem% or issue%). This generally locates the standard question: 'what is the most important problem facing the country today?' This will provide a view into the issues important at that time. Use this to fuel your other searches.
